May 2018

Dear Residents:

Sometime between the end of May and the beginning of June, (weather permitting), Dosch-King will be returning to re-apply a surface treatment to the following roads in Narragansett:

Bristol Road	Glocester Road	Hope Lane
Ashley Court	Durkin Drive	James Street
Martin Court	Margaret Street	Kathy Street
Collins Street	Robertson Road	East Pond Road
Alexander Drive	Capt. Freebody Road	Pocono Road
Hawthorne Avenue	Old Ocean Road	Ocean Spray Avenue
Phillip Drive	Manor Drive	Ocean View Drive
Crest Drive		

We have **not** been notified by Dosch-King as to the exact date they will begin. An update will be posted to the Town of Narragansett website when we have the information.

Please make appropriate arrangements for your vehicles to be off the road by 7am, when they are in the area. We ask that you please park on side streets if you need to go out during the day. Please be patient with the contractor, this is only a temporary condition, the more freedom that they have to perform their work, the faster they will move on the next street. You will not be allowed to drive over the new surface until for at least one hour after the treatment has been applied. DPW sweepers will come along in the following days to sweep up residual loose material.

Surface treating (also known as Stone Sealing) is a cost effective method of treating pavement surfaces to slow down the rate of deterioration and extend the useful life of the pavement. To be a good candidate for this treatment, the pavement needs to be structurally sound with no significant defects. Because the process failed on the first attempt, Dosch-King has agreed to return & remedy the situation, at no extra cost to the Taxpayers.

We apologize for the inconvenience and appreciate your patience during your project.
